

# **Resolution 08-11**

## **AASHTO Highway Subcommittee on Maintenance**

### **PROPOSES COMMON PERFORMANCE MEASURES**

WHEREAS, the AASHTO Highway Subcommittee on Maintenance has recognized the need to identify common maintenance performance measures to be defined and made available to all agencies, and

WHEREAS, many state agencies have performance measures for maintenance elements and have recognized a need for consistent customer perception nationwide on some key common elements, and

WHEREAS, the AASHTO Highway Subcommittee on Maintenance successfully conducted workshops on common measures in Scottsdale, Arizona, and a Peer Exchange in Madison, Wisconsin, and

WHEREAS, these events have demonstrated that many applications such as benchmarking and asset management, as well as the opportunity for standardization of measurement equipment, are handicapped without common measures, and

NOW, THEREFORE BE IT RESOLVED that the AASHTO Highway Subcommittee on Maintenance requests SCOH support and provide resources to appoint a Task Force of state maintenance personnel and other stakeholders working with FHWA and TRB.

THEREFORE BE IT RESOLVED, the Task Force will identify a number of areas to establish common performance measures as we move to more performance standards, and

THEREFORE BE IT RESOLVED, the Task Force will identify a number of common performance measures within each of the above established areas along with uniform collection procedures and uniform units of measurement, and

BE IT FURTHER RESOLVED, that the AASHTO Highway Subcommittee on Maintenance will encourage the use of such measures by all state maintenance agencies in the delivery of improved outcome based maintenance practices.
