

California Nevada Cement Association (CNCA) – review & distribution

This is the CNCA team that works on cement related items within the Concrete Materials & QA sub task group. CNCA has worked on many topics in the past and their emerging issue is portland limestone cement. Tom Tietz coordinates communication and strives to bring the group to consensus before submitting anything to Caltrans.

CNCA Technical Group:

CalPortland:	Kirk McDonald
Cemex:	Chris Walz
Lehigh Hanson:	Morgan Johnson
Mitsubishi:	Jim Russell
National Cement:	Laurent Meurette
Nevada Cement:	Rick Quinn
TXI:	Bob Sylvia and Steve Arment

CNCA also works with other task and sub-task groups, including the Pavement Foundations task group. For instance, Tom Tietz currently co-chairs the Cement Treated Soils and Full Depth Reclamation (FDR) for cement sub task groups under the Pavement Foundations task group. These are participants:

CNCA:	Jeff Wykoff
Durham Stabilization:	Bob Durham
Griffin Soils:	Bill Howard and Don Greb
Pavement Recycling Systems:	Jim O'Kane and Marco Estrada
PCA:	Wayne Adaska
Western Stabilization:	John Jordan
