

**RFP RDS-2660-421
RDS Request for Proposal**

Question and Answer Set #2

#	RFP Reference	Req. #	Question to the State	Response from the State
1	Section X		<p>“The amount of time for software demonstrations - A third day is requested to be added to the demonstration time, to allow for adequate time to answer questions during the demos. (Section X, Subsection B. Page X-1)”</p>	<p>A third day will not be added as there will be no questions allowed during the demonstration. Addendum #2 will clarify this requirement.</p>
2	Section V	Administrative Requirements Items B-1	<p>Our company has a 26 year history in CAD software with a wide range of clients large and small. There are State DOTs that use our software but not as their primary roadway design software. Our software is used by companies performing roadway design work for State DOTs and by City and County road departments.</p> <p>Based on the statements above from the RFP Administrative Requirements, will the proposal from our company be considered given it is not the primary roadway design software in two State DOTs?</p>	<p>This requirement will be modified, via addendum, to require the proposed software be in use as of the Final Bid submission date, by at least two other DOTs as a roadway design software, not necessarily the primary roadway design software.</p>
