Effective Date: October 2006
Supersedes: DP-15 (08-26-93)

TITLE U.S. Customary (English) System

POLICY

The California Department of Transportation (Department) adopts the use of English units as its preferred system of units and measures.

INTENDED RESULTS

The use of the English system of units and measures aligns Departmental practices, procedures, products, and services with our primary customers and partners; the contracting industry, other State and local agencies, and the citizens we serve.

RESPONSIBILITIES

Deputy Director, Project Delivery:

- Implements the Department's Metric to English Transition Plan and coordinates through the statewide Metric to English Project Manager the Department's Metric to English conversion tasks.

Deputy Directors and District Directors:

- Initiate actions within their Divisions or Districts to ensure an efficient transition.
- Ensure that English units and measures are adopted as the Department's preferred system.

Employees:

- Support the Department's efforts to implement a timely and efficient transition to the English system.
- Utilize English units and measures in their daily business activities.

APPLICABILITY

All departmental employees.

WILL KEMPTON
Director
