

manual change transmittal

TITLE PROJECT DEVELOPMENT PROCEDURES MANUAL	APPROVED BY  TIMOTHY CRAGGS, Chief	Date Issued: September 20, 2016
		Page 1 of 1
SUBJECT AREA Access Control Modification	ISSUING UNIT DIVISION OF DESIGN	
SUPERCEDES CHAPTER 27 – Access Control Modification	DISTRIBUTION ON-LINE	

The official version of the Project Development Procedures Manual (PDPM) is the electronic version found on Caltrans Division of Design Website:
<http://www.dot.ca.gov/hq/oppd/pdpm/pdpmn.htm>.

The title for Chapter 27 has been changed from “New Public Road Connection” to “Access Control Modification” to better categorize the information presented in the chapter.

Changes were needed to incorporate the requirements for new or modified access on the Interstate System from the FHWA *Interstate System Access Informational Guide* and to refresh other information so it represents current policy and practice. The guidance revisions also include miscellaneous minor changes to remove inconsistency, update requirements, correct terminology, update references and correct formatting. The locations of revisions are not marked with a vertical line within the manual because the chapter has been reorganized.

Some of the references found in the PDPM have hyperlinks that connect to Caltrans intranet pages which are not displayable to the general public. Until such time that the specific reference becomes available on the internet, the user will have to contact their district liaison, Caltrans project manager, or the appropriate Headquarters division to inquire about the availability of the reference.

PDPM subscribers are encouraged to use the most recent manual version available on-line at the above website. Should a subscriber choose to maintain a paper copy of the manual, the subscriber is responsible for keeping their paper copy up to date and current. If you received this manual change transmittal by some method other than the subscription service for project development procedure updates and would like to become a subscriber, please visit:
