

## HIGH PROFILE PROJECT RESPONSIBILITIES LIST

*Project Description: Modify Interchange*

*EA Number:02-3842K*

*Discussion of Involvement:* This project is on hold by the County due to lack of matching local funds. This is an ordinary Interstate interchange modification project. There is a \$2,255,291 earmark demonstration fund from TEA-21 (High Priority Project No. 769).

The purpose for the Flores Avenue interchange access modification project is to improve interregional truck access from Interstate 5 to the existing industrial lands located along County Road 99W between the City of Red Bluff to the north and the Community of Proberta to the south. Recent industrial and commercial development combined with the population growth of Tehama County has resulted in ever increasing traffic loads on County Road 99W. By modifying the existing interchange to a more direct route with no conflicts with existing residential and commercial land uses or street intersections, vehicle miles traveled will be reduced, noise impacts will be lessened and air quality impacts will also be lessened from reduced distance the trucks and vehicles need to travel around the interchange.

The activities with highlighted   cells indicate whether this approval action will be made either by FHWA or delegated to Caltrans if the particular activity is of low risk to the project or the FAHP.
