

California Airport Land Use Planning Handbook

The California Department of Transportation, Division of Aeronautics is pleased to announce the release of the October 2011 *California Airport Land Use Planning Handbook* ([Handbook](#)).

The Handbook's purpose is to support and amplify the State Aeronautics Act (California Public Utilities Code, Section 21670 et seq.) which establishes statewide requirements for the conduct of airport land use compatibility planning. The Handbook provides compatibility planning guidance to Airport Land Use Commissions, their staff, consultants, and the counties and cities having jurisdiction over land use surrounding airports.
