E-mail:	Susan Ellis	TRMAIL1.Sellis@trmx3.dot.ca.gov

Note: If, after reviewing these procedures, the Telecommunications Carrier has questions or comments, please call the Telecommunications Licensing Program Manager listed above. All requests to license a specific site must be submitted to the District Airspace Manager (See Appendix B & C).

These procedures to license property to Telecommunications Wireless Carriers are a supplement to the Caltrans Right of Way Manual, Airspace Chapter, and are designed to assist District staff in licensing sites for Telecommunications Wireless Facilities and do not supplant the requirements identified in the Department’s Airspace Development policies and procedures.

PLEASE BE ADVISED the information in this manual is updated on a regular basis; for the most current information, contact the appropriate department.
