Subject: Re: Notice of 30-day Public Review for the final draft CTP 2040

Dear CTP Project Team,

I do not see any cameras proposed along the I-80 corridor from Vallejo through Richmond. This area is the scene of multiple shootings and (2) deaths in the past three months. So far CHP investigations have not provided any suspects. This area is a kill zone. Freeway cameras should be installed immediately before more Freeway shooting deaths occur. Please respond to me as to what action will be taken by your department concerning the I-80 East Bay Area Freeway murders.

Best Regards, Roy Swearingen
Mayor, City of Pinole
