state: CA  
comments: Ideas to consider:

Create a train that people will pay extra for with special features of travel. Multimedia integration, adds and special features by Disney, Dreamworks and others can provide extra features to a train , tourism, game interaction, movies on the train, screens on the ceilings of the train and more, hire me, I'll help. making the ride more interesting by allowing these companies to get free advertising. -----Tourism type travel. Two different types of trains.

Tourism train focus, travel? adventures-----other countries are doing this-----Europe, even look at Russia's new train plans under way. The USA can do better, CA is famous for the arts and entertainment industry, capitalize on this. why not add in California's arts component. Movies, fine arts, theater, get companies like Disney, Dreamworks, Pixar, BRC, more on board. ---The 10 freeway train lines are near the famous Palm Springs- famous arts community, casinos, old movie stars homes, then go to Vegas, or near river water adventure tourism attractions, focus on tourism too, the Grand Canyon and famous ski resorts, focus on travel special trains for extra income. Get multimedia companies to buy in with advertising and multimedia integration for an exciting travel. Work with multimedia companies and advertising companies.

All train stops should have an art museum, art auctions that raises money for California arts programs, ca represents a huge art arena. Stops should have a mall with entrepanuers who give a percent back to our huge homeless population problem. Stops should have a restaurant and arts programs throughout each train stop in the state. . All stops should ask stores that lease buildings to have programs that give back a percent to help Ca arts in the train stops and a percent to clean up CA and stop homelessness or the war on drugs.

I have a BA degree and and AA degree in liberal studies and fine arts. I'm willing to intern and work on an MA and work on this plan with your team in the Southern CA area. Please hire me to help this plan become a reality.

sincerely,  
Mel Hernandez
