

Monterey on the Move

City of Monterey

Community-Based Transportation Planning
FY 11-12 Grant Cycle
District 5
Grant Award Amount: \$36,294

Project Summary:

This community-based project will develop a Multi-Modal Mobility Plan for the City of Monterey. The plan will incorporate the City's Bicycle Transportation Plan, add a pedestrian component, identify specific end-of-use facilities and locations for bicycles, and address multi-modal level of service needs for the community.

Community Outreach

- The City of Monterey formed an Advisory Committee of key stakeholders who identified and further defined project objectives, scope of work and schedule.
- Project staff attended and organized several neighborhood meetings and community events, such as farmers markets and Bike to Work Week.
- Input was also received through a community survey, which was distributed both online and in hard copy form.
- When the draft was released for public review, members of the community had an opportunity to share their ideas and comment on the draft during public meetings.

Project Outcome

- Improve pedestrian circulation Citywide by providing safe convenient connections between residential, commercial and recreational areas.
- Engage all relevant stakeholders in the planning process including those who are traditionally under-represented.
- Ensure that the plan serves the diverse needs of the community while contributing to economic growth.

Successes & Next Steps

- The project will begin to seek funding from all levels of government including federal, state and local agencies.
- Projects for the City of Monterey have been ranked and prioritized based on meeting plan objectives including safety and closing gaps within the network.
- Based on the many needs of the community a table was created that outlines possible funding sources and a checklist of issues that arose during public meetings regarding specific project areas.
