

# CALIFORNIA FREIGHT MOBILITY PLAN GOALS & OBJECTIVES

---

## **Economic Contribution Goal:**

Improve the contribution of the California freight transportation system to economic efficiency, productivity, and competitiveness

- Objective 1:** Support freight projects that enhance economic activity
  - Objective 2:** Enhance freight mobility, reliability, and global competitiveness
  - Objective 3:** Seek sustainable and flexible funding to maintain and improve the freight system
- 

## **Congestion Relief Goal:**

Provide solutions to congestion on the freight transportation system

- Objective 1:** Manage and operate an efficient integrated freight system
  - Objective 2:** Invest strategically to optimize system performance
  - Objective 3:** Identify causes and solutions to freight bottlenecks
- 

## **Safety and Security Goal:**

Improve the safety, security, and resilience of the freight transportation system

- Objective 1:** Reduce rates of collisions, fatalities, and serious injuries associated with freight movements on the designated freight network
  - Objective 2:** Provide for the resilience and security of the freight transportation system
- 

## **Infrastructure and Preservation Goal:**

Improving the state of good repair of the freight transportation system

- Objective 1:** Apply sustainable preventive maintenance and rehabilitation strategies
  - Objective 2:** Adapt the freight system to reduce impacts from climate change
- 

## **Technology and Innovation Goal:**

Use technology and innovation to operate, maintain, and optimize the efficiency of the freight transportation system and to reduce its environmental and community impacts

- Objective 1:** Support demonstrations of technology uses, innovation, and performance management
  - Objective 2:** Support strategic applications of new technologies
  - Objective 3:** Use technology and real time information to move freight on all modes more efficiently
- 

## **Environmental Stewardship Goal:**

Reduce adverse environmental and community impacts of the freight transportation system

- Objective 1:** Integrate environmental, health, and social equity considerations in all stages of freight planning and implementation
  - Objective 2:** Conserve and enhance natural and cultural resources
  - Objective 3:** Reduce greenhouse gas emissions and other pollutants by transforming the freight transportation system to be cleaner and more efficient
-
