

## FACT SHEET

### WHY A CALIFORNIA TRANSPORTATION PLAN (CTP) 2040?

Transportation is crucial to our economy, environment, and everyday personal lives whether traveling to work, school, shopping, public services, and social and recreational opportunities. Therefore, to keep California moving into the future will require a transportation system that facilitates the reliable and efficient movement of people, goods, services, and information in a manner that is economically, environmentally, and equitably responsible.

Today's transportation system depends on working towards a shared vision to keep us moving toward the future. The CTP 2040 presents a long-term vision with a set of supporting goals, policies, and recommendations to help guide transportation-related decisions and investments to meet our future mobility needs and reduce greenhouse gas (GHG) emissions. The CTP 2040 takes a "whole system" approach of integrating long-range statewide and regional transportation planning documents and programs with the latest tools and technologies to evaluate transportation and land use scenarios and policies.

### HOW TO MOVE CALIFORNIA FORWARD

The CTP 2040 modeling process integrates travel demand, air quality, and economic forecasting models to identify and analyze three scenarios. The evaluation of three scenarios illustrates how each path contributes to meeting California's GHG reductions targets. Starting with a 2010 base year, the CTP 2040 provides an in-depth analysis of future travel behavior, expected vehicle miles traveled (VMT), and GHG emission levels for the years 2020, 2040, and 2050.

### IMPLEMENTATION HIGHLIGHTS

The succeeding implementation highlights illustrate the vision and direction the CTP 2040.

- Improve Transit
- Reduce long-run repair and maintenance costs
- Improve highways and roads
- Improve freight efficiency and the economy
- Improve communities
- Reduce transportation-system deaths and injuries
- Expand the use and safety of bike and pedestrian facilities
- Make our vehicles and transportation fuels cleaner
- Improve public health and achieve climate and other environmental goals
- Secure permanent, stable, and sufficient transportation revenue

### ROLLOUT PLAN

Caltrans will launch a rollout plan to bring together our transportation partners and stakeholders to share ideas and foster implementation of the CTP 2040 for future transportation-related planning, decision-making, and investments.
