Subject: Table 23 in Draft CTP
Importance: High

Gabe –

I think you are the right one to direct this to....

As you probably know, we are working on finalizing the Draft of our new Regional Plan for release at the end of this month. In the GHG section of the appendices, we were hoping to reference Table 23 of the Draft CTP. The problem is, we think there may be a few typos in it. In particular, the table refers to “20201” three times and we think that the “1” was supposed to be a footnote?? The footnote below seems to be the right reference, but it is preceded by an asterisk. Also, in the very last row, under Target for 2050 (far right), it shows 8% when we believe it should be 80%.

Can you, or the appropriate Caltrans contact, take a look at this and verify these edits. We’d like to use the table for reference, but we’d like to get it right. What would be really great is if someone might be able to get a revised table to us, as all we have is a pdf to work with.

Thanks!

“Muggs”
