

Rob Rundle Bio

Rob Rundle is a Principal in charge of SANDAG's Environmental and Public Facilities Planning division. Rob has been with SANDAG for 13 years and oversees the agencies environmental planning activities which include habitat preservation planning, energy planning, shoreline preservation, and the agency's CEQA and NEPA compliance work. Rob holds a bachelors degree in Urban Planning and a Master's degree in Geography. Rob also is managing the agency's current effort to develop a "quality of life" funding measure for long-term needs associated with water quality improvement, beach nourishment, habitat preservation, and transit enhancements.
