

Senate Bill 1 Planning Grants Workshops

Caltrans is holding public workshops to gather public and stakeholder input and inform draft grant guide development for the Senate Bill 1 planning grant funds:

 **\$25 million for Sustainable Communities Grants** to encourage local and regional planning that further state goals, including, but not limited to, the goals and best practices cited in the regional transportation plan guidelines adopted by the California Transportation Commission.

 **\$6 million for Adaptation Planning Grants** to local and regional agencies for climate change adaptation planning.

In addition to public input, Caltrans is partnering with other State Agencies to ensure that the State's priorities are addressed in these important transportation planning programs. It is envisioned that these planning grants will provide much needed funding to support regional sustainable communities strategies and ultimately achieve the State's greenhouse gas reductions targets of 40 and 80 percent below 1990 levels by 2030 and 2050, respectively.
