

SENATE BILL 1 PLANNING GRANT GUIDES FINAL WORKSHOPS

Caltrans released the final draft grant guides for the new Senate Bill 1 planning grants on August 2, 2017, with a public comment period ending on August 31, 2017. Immediately following the comment period, Caltrans is holding two workshops to provide the public and stakeholders a final opportunity to weigh-in and pose technical questions regarding the final draft grant guides, including:

- **\$25 million annually for Sustainable Communities Planning Grants** to encourage local and regional planning that further state goals, including, but not limited to, the goals and best practices cited in the regional transportation plan guidelines adopted by the California Transportation Commission.
- **\$20 million over 3 years for Adaptation Planning Grants** to local and regional agencies for climate change adaptation planning.

In addition to public input, Caltrans is partnering with other State Agencies to ensure that the State's priorities are addressed in these important transportation planning programs. State Agencies will be present to answer questions related to their subject matter of expertise. It is envisioned that these planning grants will provide much needed funding to support regional sustainable communities strategies and ultimately achieve the State's greenhouse gas reductions targets of 40 and 80 percent below 1990 levels by 2030 and 2050, respectively.

More workshop information will be posted online as details become available at:
