Join a discussion with representatives from State, regional, and local government and private agencies to set some of our community goals into action.

As part of the LA Urban League's Neighborhoods@Work initiative, we will explore local housing and transportation issues -- and how the many State agencies can help us achieve our common community goals and transform the Crenshaw community.

BTH is committed to helping local and regional leaders improve the quality of life in urban communities State-wide. BTH has partnered in a pilot project with the Los Angeles Urban League as part of the California Urban Communities (CUC).
