## **FOR IMMEDIATE RELEASE**

July 19, 2010

### **Caltrans to hold a Community Workshop**

The California Department of Transportation (Caltrans), in cooperation with the City of Colusa, will hold a community workshop on Wednesday, July 28, from 6:30 – 8:30 p.m. at the Colusa City Hall Auditorium, 425 Webster Street. The purpose of the workshop is to review preliminary concepts for improving the Market Street/State Route 20 (SR 20) transportation corridor in the future, focusing on specific ideas for how vehicles, pedestrians and bicycles move along this important corridor.

The area to be discussed includes Market Street/SR20 from 10<sup>th</sup> Street east to Bridge Street. All interested community members are invited to attend, and provide feedback on concepts developed with input generated during earlier workshops in May and June with community members, tribal representatives and property owners along and near the corridor. Colusa City Planner Bryan Stice encourages people to attend. “This workshop is going to be a great opportunity for everyone to share their own ideas, to review the concepts developed so far, and to further develop a community vision for the future of Market Street/SR20.”

This is the second of two public workshops to be held as part of the Market Street/SR20 Complete Streets Project. For more information about the workshop, contact Bryan Stice, 458-5622 ext. 103. For information in Spanish, contact Terri Rivera at 458-4416. Spanish translation services will be provided.

Seating is limited, so community members are encouraged to RSVP by emailing or calling:
