

**K. Sue Kiser**  
**Director, Planning and Air Quality**  
**Federal Highway Administration – California Division**

Sue has served as the Director of Planning and Air Quality, since May, 2002. Prior to being selected as the Director, Sue was the Planning Team Leader. The Planning and Air Quality Team (PAQT) is responsible for the review and approval of Federal Transportation Plans and Programs. The PAQT also is responsible for regional and project level conformity determinations for air quality non-attainment areas.

Sue has been with the Federal Highway administration since 1991, serving in several different capacities. She holds a degree in Business Administration for California State University – Los Angeles and a Transportation Management Certificate from the University of California – Davis and is also a Certified Public Accountant.
