## **ALLOCATIONS FOR EMERGENCY PROJECTS**

### **SEISMIC RETROFIT PHASE 1**

#### **INFORMATION**

##### **BACKGROUND**

The California Transportation Commission (Commission) by Resolution G-11, as revised by Resolution G-94, delegated to the Department of Transportation (Department) authority to allocate funds to correct certain situations caused by floods, slides, earthquakes, material failures, slipouts, unusual accidents or other similar events. This allows the Department to immediately begin corrective action in an emergency condition without waiting for the next Commission meeting to receive an allocation.

On March 30, 1994, the Commission delegated to the Department authority to allocate funds by Resolution G-11, as revised by Resolution G-94, for seismic retrofit project. This project is part of the legislatively mandated Bridge Seismic Retrofit Program (SB131), approved by the Governors Office on March 15, 1994. Due to potential damage to the State Highway System and related infrastructure, it is in the best interest of the State to provide to the greatest extent feasible, resources to address the disruptions and dangerous situations that continue to exist.

##### **SUMMARY AND CONCLUSIONS**

Pursuant to the authority granted by Resolution G-11, State funds totaling \$165,000 has been allocated for one (1) emergency construction project on the attached list.
