### **STIP AMENDMENT 02S-007 NOTICE**

#### **SUMMARY**

This amendment programs \$4,013,000 from Lake County's Unprogrammed Share Balance for five new local road rehabilitation and reconstruction, and bikeway and bridge construction projects: \$839,000 in FY 2002-03, \$182,000 in FY 2003-04, \$1,709,000 in FY 2004-05, and \$1,283,000 in FY 2005-06.

#### **RECOMMENDATION**

The Lake County/City Area Planning Council (APC) is requesting this amendment. The Department of Transportation (Department) has reviewed the amendment and found it to be consistent with the California Transportation Commission (Commission) adopted State Transportation Improvement Program (STIP) guidelines. These projects have not received State only funding approval. Commission staff has indicated that the only available STIP capacity is in FY 2006-07.

#### **RESOLUTION**

Resolved, that the California Transportation Commission (Commission) revise the 2002 State Transportation Improvement Program (STIP) at the end of the 30-day notice period as shown on Attachment A:

**BACKGROUND**

This amendment programs \$4,013,000 from Lake County's Unprogrammed Share Balance for five new local road rehabilitation and reconstruction, and bikeway and bridge construction projects: \$839,000 in FY 2002-03, \$182,000 in FY 2003-04, \$1,709,000 in FY 2004-05, and \$1,283,000 in FY 2005-06.

Project #1 Lakeshore Boulevard Bikeway Construction and Rehabilitation (PPNO 3030R)

This amendment programs \$192,000 in Regional Improvement Program (RIP) funds to construct bicycle lanes on Lakeshore Boulevard. This project will include pavement rehabilitation, shoulder widening, and replacement of drainage system.

Project #2 Merritt Road Bridge at Kelsey Creek (PPNO 3031R)

This amendment programs \$665,000 in RIP funds to construct a new bridge at a low water crossing. Due to high water levels in the winter months, crossing Kelsey Creek is frequently inaccessible. Constructing a bridge at this location will eliminate road closures as a result of high water.

Project #3 South Main Street Road Rehabilitation (PPNO 3032R)

This project programs \$1,406,000 in RIP funds for pavement rehabilitation on South Main Street. This project will include pavement rehabilitation, shoulder widening, and replacement of drainage system, which will extend the service life of this roadway by at least ten years.

Project #4 Soda Bay Road Rehabilitation (PPNO 3033R)

This project programs \$1,666,000 in RIP funds for pavement rehabilitation on Soda Bay Road. This project will include pavement rehabilitation, shoulder widening, and replacement of drainage system, which will extend the service life of this roadway by at least ten years.

Project #5 Soda Bay Road Rehabilitation (PPNO 3034R)

This project programs \$84,000 in RIP funds for pavement rehabilitation on Soda Bay Road. This project will include pavement rehabilitation, shoulder widening, and replacement of drainage system, which will extend the service life of this roadway by at least ten years.
