Acting Division Chief
Budgets

Ref: **INFORMATIONAL REPORT - SEISMIC RETROFIT PROJECT PHASE 2 ALLOCATION**

SUMMARY:

Pursuant to the authority granted by Resolution G-11, State Highway Account funds of \$480,000 have been allocated for one (1) Seismic Retrofit Phase 2 project described below.

Project #1. Near Guadalupe at the Santa Maria River Bridge. This initial project was for the seismic retrofit of the bridge. The first supplemental funds request was due to a change in pile reinforcement. A second supplemental funds request was due to a change in concrete requirements. This supplemental funds request is to pay a final arbitration settlement. This project was completed in November 1999.

BACKGROUND:

On March 30, 1994, the California Transportation Commission (Commission) delegated to the Department of Transportation (Department) authority to allocate funds by Resolution G-11, as amended by Resolution G-00-11, for seismic retrofit projects. This authority allows the Department to begin work without waiting for the next Commission meeting to receive an allocation.

This project is part of the legislatively mandated Bridge Seismic Retrofit Program (SB131), approved by the Governors Office on March 15, 1994.
