

## Memorandum

To: CHAIR AND COMMISSIONERS

CTC Meeting: June 7-8, 2006

Reference No.: 2.1a.(2)  
Action Item

From: CINDY McKIM  
Chief Financial Officer

Prepared by: Ross A. Chittenden  
Division Chief  
Transportation Programming

Subject: **STIP AMENDMENT 06S-002**

### **RECOMMENDATION:**

The Department of Transportation (Department) recommends the California Transportation Commission (Commission) approve this State Transportation Improvement Program (STIP) amendment for an AB 3090 Cash Reimbursement request for the Placer County Transportation Planning Agency (PCTPA) and the City of Rocklin. This amendment was noticed at the April 2006 Commission meeting.

### **ISSUE:**

The City of Rocklin proposes to use local funds to replace a total of \$18,432,000 programmed in PCTPA's Regional Improvement Program (RIP) and Interregional Improvement Program (IIP) in FY 2007-08 for Construction of the Route 80 Sierra College Interchange project (PPNO 0151D), with later reimbursement in FY 2010-11.

### **BACKGROUND:**

The City of Rocklin proposes to advance the Route 80 Sierra College Interchange project (PPNO 0151D) from FY 2007-08 to FY 2006-07 using local funds. The source of the local funds are loans to the city from private developers. **Construction support will be combined with construction capitol.** This combined amount (\$18,432,000 currently programmed as \$7,432,000 of RIP and \$11,000,000 of IIP funds) will be requested in FY 2010-11 as a cash reimbursement to pay the developers for the loans. The city and the developers recognize the cash reimbursement is subject to the availability of funds.

This request follows AB 3090 Guidelines that allow a local agency to use its own funds (non-state or non-federal) to complete a project component early and to be later reimbursed with STIP funds currently programmed on the project. An AB 3090 reimbursement agreement will be drafted and submitted to Commission staff for review prior to the June 2006 Commission meeting.

The project is currently programmed for Environmental (PA&ED), Design (PS&E) and Construction as part of the 2004 STIP. Right of Way is being funded with local funds. PCTPA has indicated in their 2006 RTIP the desire to proceed with this project under an AB 3090 arrangement.

The purpose of the project is to correct current traffic operation deficiencies on Sierra College Boulevard at the interchange, to accommodate traffic which uses the Sierra College corridor for regional access, to provide the needed capacity to support future growth within both the City of Rocklin and the Southern Placer County region, and to provide for standard vertical and horizontal clearance to facilitate future widening of Interstate 80.

Interstate 80 provides access across the Sierra for major interstate goods movement and transport into the Sacramento and Bay areas as well as connectivity to other vital Gateways. Trucks make up approximately 6.5 percent of the traffic volume along the stretch of interstate where this project is located. The interchange at Sierra College Boulevard is the primary access to Sierra College and provides the cities of Rocklin and Loomis access to parts of unincorporated Placer County.

**RESOLUTION:**

Resolved, that the California Transportation Commission revise the 2006 State Transportation Improvement Program at the end of the 30-day notice period, as follows:

**Revises:**
