Subject: **UPDATE ON PROJECTS DELIVERED BUT NOT YET VOTED**

RECOMMENDATION:

The California Department of Transportation (Department) recommends the California Transportation Commission (Commission) accept the attached report on the status of State Transportation Improvement Program (STIP), State Highway Operation and Protection Program, and Proposition 1B Bond Program projects that have been delivered (deemed ready to go).

ISSUE:

Due to financial constraints of the State, the Commission has been unable to allocate funds to allow the implementing agencies to award contracts for transportation projects that have been delivered.

The attached list identifies those projects that have been delivered in Fiscal Year (FY) 2008-09 and FY 2009-10, but the agencies have not been able to proceed due to funding constraints. Some projects previously listed have been removed based on a request from the implementing agency.

The projects listed are in no particular priority order. The list is arranged by project category, then district, then county. The current requested allocation amounts by category are reflected below.
