1 \$440,000  Humboldt 01U-Hum-169 28.3/28.6	Near Weithchpec, 0.1 mile west of Rube Ranch Creek Bridge (Bridge #4-218). On February 20, 2008, heavy rain caused a slipout to occur resulting in the loss of roadway shoulder and potential of total roadway loss. Initial project was for the construction of a rock slope protection (RSP) buttress. This supplemental is due to discovery of severe erosion and slope damage that resulted in changing the support structure design from a rock buttress wall to a soldier tieback wall.  Initial G-11 Allocation 03/07/08: \$350,000 Supplemental G-11 Allocation 06/27/2008: \$440,000 Revised G-11 Allocation: \$790,000 (Additional \$10,000 was allocated for right of way purposes)	487101 01-2265 SHOPP Emergency	2006-07 302-0042 SHA 20.20.201.130	\$440,000

The fire burned vegetation along the cut slopes of the highway and damaged highway culverts. This project is to repair damaged culverts, build debris racks to protect culverts, perform scaling operation to remove loose rocks on cut slopes, and build debris fences to minimize rock fall damage. On May 15, 2008, a high load vehicle hit the structure damaging exposed concrete girders and causing severe structural cracks. Initial project was to repair all damaged girders and conduct traffic control as necessary. This supplemental is due to changing initial plan to replacing instead of repairing the most damaged girder in order to restore its original load capacity.  Initial G-11 Allocation 06/04/08: \$275,000 Supplemental G-11 Allocation 06/19/2008: \$250,000 Revised G-11 Allocation: \$525,000	0K1801 06-6446 SHOPP Emergency	2006-07 302-0042 SHA 20.20.201.130	\$250,000

The slide material blocked both the northbound and southbound lanes of the highway. This project is to remove all loose and unstable material from the roadway and the slope.
