RE: AMENDMENT #11-01 TO THE 2011 FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM (FTIP)

Dear Ms. Falsetti:

Under authority granted to me by the Southern California Association of Governments (SCAG) Regional Council, I hereby approve and transmit amendment #11-01 for projects in Imperial, Los Angeles, Orange, Riverside, San Bernardino, and Ventura Counties.

This amendment:

- Is consistent with the amended 2008 Regional Transportation Plan (RTP);
- Does not affect the regional emissions analysis of the FTIP;
- Does not affect the timely implementation of the Transportation Control Measures; and
- Does not adversely impact financial constraint.

Furthermore, SAG through its function as the designated Metropolitan Planning Organization (MPO) has found the attached projects to conform to the applicable State Implementation Plan. The update of these projects does not impact the conformity analysis of the FY 2011 FTIP.

In addition, SCAG has completed the interagency consultation and the public participation process for this amendment on December 16, 2010.

If you have any questions, please contact Rosemary Ayala of my staff at (213) 236-1927 or via e-mail at ayala@scag.ca.gov

Sincerely,

Hasan Ikhrata
Executive Director

Notes:

*Crossed out roads were crossed out since they were completed with other funds. They are kept in strikeout fashion in order to preserve the road numbering for internal accounting.
*AC Paving Cost is $250,000 per mile. Since AC Grindings with Oil or Binder is approx $85,000 per mile it is more cost effective than paving for PM 10 mitigation.
*Costs assume public bid process with federal aid funding.
*Priority shown is subject to reassessment by Public Works Director based on updated ADT counts.
***If entire proposed project cannot be fully funded, any partial funding will be used in order of priority.**
*Construction cost does not reflects Preliminary Engineering but does reflect Construction Engineering (inspection, materials testing); Thereforefore total cost of $95,000 per mile is assumed.
**COST RECOVERY FACTOR = 0.672*CMAQ$/ADT*MILES*2LBS*365 = COST PER LB OF PM REMOVED

NOTES:

[1] **Regional:** Some MPOs may not have regional fund sources. In these cases, data is shown as "zero" or not applicable.

[2] **Federal Total:** Is the sum of federal highway and federal transit programs.

[3] **Innovative Finance:** Toll revenues are included under local and regional while GARVEE bond revenues are included under state.

[4] **Proposition 1B:** Subtotal is a sum of funding for various programs funded under proposition 1B except for STIP Augmentation and SHOPP Augmentation.

[5] **Fund Estimate - Unprogrammed Capacity:** Difference between Obligation Authority level and Apportionment level, these funds can not be used for programming projects

[6] **Note:** STIP/SHOPP funding coming from prior STIP/SHOPP programs.

Note 1 - For Amendment 1 this includes AB2766, STAL-S, STA-PUC, SR2S, State Cash, and OES funds

Note 2 - For Amendment 1 this includes STP-Enhancement Local, CRD, STP, and IM funds

Note 3 - For Amendment 1 this includes 2006 Earmarks, 2009 Earmarks, HUD, 5207, 5394, Section 112, Section 115, Section 117, Section 125, Section 129, BIA, EDA, STP 4818, IMD, IM2764, TIGER, FEMA, IM-EAR, and IM-4818 funds

CONFORMITY

FINAL CONFORMITY ANALYSIS

Introduction

Federal Transportation Improvement Program

The Federal Transportation Improvement Program (FTIP) is the federally required short-range document that implements the long-range Regional Transportation Plan (RTP). The biennial FTIP update, produced on an even year cycle, is a multimodal list of capital improvement projects to be implemented over a six year period. The 2011 FTIP is based on the 2008 RTP and implements the projects and programs included in the fiscal years (2010/11 – 2015/2016) of the 2008 RTP.

Federal Conformity Requirements

Federal and state regulations allow that Southern California Association of Governments (SCAG), as the designated Metropolitan Planning Organization, may rely on a previous regional emissions analysis when processing amendments, in the event that certain conditions are met. The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) and SCAG have identified the following type of 2011 FTIP amendments for which SCAG may rely on the existing regional emissions analysis:

"Category 3. Formal Amendment – Relying on the existing Conformity Determination. This amendment may include adding a project or a project phase to the program. This amendment category consists of projects that are modeled and are included in the regional emissions analysis."[1]

Amendment #11-01 relies on the regional emissions analysis for the 2008 RTP (Amendment #4) and 2011 FTIP[2] [Section 93.122(g) is the relevant part of the Transportation Conformity rule for this amendment.]

FTIP Amendment #11-01 Project Description

FTIP Amendment #11-01 includes twenty-two projects for which conformity needs to be reaffirmed (see the Conformity Determination Project Listing). These projects are located within the Mojave Desert Air Basin (MDAB), the South Coast Air Basin (SCAB), the South Central Coast Air Basin (SCCAB), and the Salton Sea Air Basin (SSAB).

Conformity Status of Current FTIP and RTP

The federal conformity determination for the 2008 RTP was approved by the FHWA and FTA on June 5, 2008. The FHWA and FTA also approved the positive conformity findings for Amendments #1-3 to the 2008 RTP on January 14, 2009, January 22, 2010, and May 6, 2010 respectively.

---

[1] *SCAG, Final 2011 Federal Transportation Improvement Program Guidelines, September 2009, page 28.*

[2] This conformity determination assumes federal approval of the conformity findings for the 2011 FTIP and the 2008 RTP Amendment #4.

In addition, the conformity redetermination for the 2008 RTP for the 2006 PM2.5 National Ambient Air Quality Standards received federal approval on August 9, 2010.

The conformity analyses for the 2011 FTIP and the 2008 RTP Amendment #4 were adopted by SCAG Regional Council on September 2, 2010 and November 4, 2010 respectively. Both are under federal review for approval.

Summary of Conformity Analysis and Findings

SCAG reaffirms the latest applicable conformity findings for both the 2008 RTP as previously amended and the 2011 FTIP, which can be found at: http://www.scag.ca.gov/tcwg/

This reaffirmation covers the findings for all applicable pollutants, including regional emissions analyses, financial constraint test, timely implementation of Transportation Control Measures (TCMs), applying the use of the latest planning assumptions and the latest approved emissions model (EMFAC2007), reaffirming consistency between the adopted 2011 FTIP and the 2008 RTP as previously amended, and reaffirming the process for interagency consultation and public participation.

SCAG has completed its analysis of the proposed changes to the 2011 FTIP. SCAG's findings for the approval of this amendment are as follows:

Overall

Statement of Fact: Inclusion of this amendment in the 2011 FTIP would not change any other policies, programs and projects which were previously approved by the federal agencies on November 17, 2008.

Finding: SCAG has determined that the 2011 FTIP Amendment #11-01 is consistent with all federal and state requirements and complies with the federal conformity regulations.

Consistency with Current RTP and FTIP

The projects needing conformity reaffirmation in Amendment #11-01 are from the adopted 2008 RTP as previously amended, which is a conforming Plan. Amendment #11-01 does not include any new regionally significant projects beyond those currently included in the 2008 RTP, nor does it move a project across any modeling years currently assumed in the 2008 RTP and 2011 FTIP. Furthermore, the design, concept and scope of the projects do not differ significantly from what was described in the 2008 RTP.

Finding: The 2011 FTIP Amendment #11-01 is consistent with the adopted 2011 FTIP and the 2008 RTP as previously amended.

Regional Emissions Analysis

SCAG is using the regional emissions analysis for the 2008 RTP (Amendment #4) and the 2011 FTIP. The emissions analysis was performed with the SCAG Regional Transportation Model and utilizes the planning, socioeconomic and model assumptions from the 2008 RTP and 2011 FTIP. FTIP Amendment #11-01 does not result in any modeling changes.

The regional emissions analysis methodology for this amendment to the 2011 FTIP uses currently applicable budgets to determine conformity for all criteria pollutants. Specifically, this conformity determination is being made for all criteria pollutants and precursors in the MDAB, SCAB, SCCAB, and SSAB.

Finding: The 2011 FTIP Amendment #11-01 regional emissions for Ozone precursors (NOx, ROG/VOC) are consistent with all applicable emission budgets for all milestone, attainment, and planning horizon years in the SCAB, SCCAB (Ventura County portion), MDAB (Los Angeles County Antelope Valley portion and San Bernardino County western portion), and SSAB (Riverside County Coachella Valley and Imperial County portions).

Finding: The 2011 FTIP Amendment #11-01 regional emissions for CO are consistent with all applicable emissions budgets for all milestone, attainment, and planning horizon years in the SCAB.

Finding: The 2011 FTIP Amendment #11-01 regional emissions for NO_2 are consistent with all applicable emissions budgets for all milestone, attainment, and planning horizon years in the SCAB.

Finding: The 2011 FTIP Amendment #11-01 regional emissions for PM10 precursors are consistent with all applicable emissions budgets for all milestone, attainment, and planning horizon years in the SCAB and SSAB (Riverside County Coachella Valley portion).

Finding: The 2011 FTIP Amendment #11-01 regional emissions for direct PM2.5 and NOx are consistent with all applicable emissions budgets for all milestone, attainment, and planning horizon years in the SCAB.

Finding: The 2011 FTIP Amendment #11-01 regional emissions for PM10 meet the interim emission test (build/no-build test) for all milestone, attainment and planning horizon years in the MDAB (two nonattainment areas: San Bernardino County portion excluding Searles Valley portion and Searles Valley portion of San Bernardino County) and SSAB (Imperial County portion).

Finding: The 2011 FTIP Amendment #11-01 regional emissions analysis for PM2.5 and its precursors meet the interim emission test (build/no-build test) for all milestone, attainment and planning horizon years in the SSAB (Imperial County portion).

Timely Implementation of TCMs

Finding: There are nine TCM projects in the 2011 FTIP Amendment #11-01. However, their project scopes and final completion dates remain the same. Therefore, the 2011 FTIP Amendment #11-01 does not change timely implementation of SCAB or SCCAB TCM projects. All SCAB and SCCAB TCM projects in the federally approved conforming 2011 FTIP are given funding priority and are on schedule for implementation.

Fiscal Constraint Analysis

Finding: FTIP Amendment #11-01 includes the most recent financial plan for the 2011 FTIP. All projects listed in the 2011 FTIP (including the proposed amendment) are financially constrained for all fiscal years.

Interagency Consultation and Public Involvement Analysis

The prior regional conformity analysis leading to FHWA and FTA's approval complied with all federal and state requirements for interagency consultation and public involvement as documented in Section V of Technical Appendix, Volume II of the 2011 FTIP. For FTIP Amendment #11-01, SCAG will undergo additional public involvement including solicitation via email for comments from the Transportation Conformity Working Group. In addition, Amendment #11-01 will be posted on SCAG's website (www.scag.ca.gov) for a 15-day public comment period.

Finding: The 2011 FTIP Amendment #11-01 complies with all federal and state requirements for interagency consultation and public involvement.
