

## Memorandum

*Flex your power!  
Be energy efficient!*

To: BIMLA RHINEHART  
Executive Director  
California Transportation Commission

Date: February 18, 2010

From: RANDELL H. IWASAKI  
Director

Subject: 2010 Interregional Transportation Improvement Program (ITIP)

Please find attached a copy of the California Department of Transportation's (Department) 2010 Interregional Transportation Improvement Program (ITIP) prepared in accordance with Government Code 14526.

The majority of fully funded construction projects in the ITIP highway program are concentrated on eight important projects. The Department is committed to working cooperatively with you and your staff to find ways to keep these important projects on their current schedule. Several of these projects will be ready to go to construction soon and would create much needed jobs and help to stimulate the economy.

As submitted, the intercity rail program remains unchanged. In addition, the Department has identified forty new Transportation Enhancement projects of which eleven can potentially be implemented in cooperation with the California Conservation Corps.

If you have questions, please contact Rachel Falsetti, Division Chief of Transportation Programming, at (916) 654-4013.
