

GIS Shapefile Disclaimer Form

Disclaimer

The California Department of Transportation makes no representation or warranties regarding the accuracy of GIS shapefiles. Many agencies update their jurisdictions frequently and this map service may not have the most recent data available. The GIS shapefiles are provided as a courtesy, however, the function classification field is unofficial and should only be used as a cross-reference. The only official functional classification for Federal Aid Funding can be found on the California Road System (CRS Maps) displayed on the website below. The FHWA stamp of approval is in the lower left corner of each CRS map (PDF), which makes it the official functional classification. CRS Maps (PDF) with official functional classification:
