## INTRODUCTION

### THE HIGHWAY PERFORMANCE MONITORING SYSTEM

The Highway Performance Monitoring System (HPMS) is a federally mandated planning study designed by the Federal Highway Administration (FHWA) and implemented as a continuing information system that encompasses data collection, data analysis, and analytical modeling. Authority for the study is vested in Section 307 of Title 23, United States Code.

The Department of Transportation's, Division of Transportation System Information collects the HPMS data from the cities, counties, Metropolitan Planning Organizations (MPOs) and other partners and stakeholders. The HPMS database maintains federally classified physical condition and performance characteristics on all public road mileage for rural and urban areas. The arterial and collector road systems (the prominent streets and roads) are then statistically sampled to estimate the current needs and future performance of the system. The type of information sampled includes: traffic operations, structural section, pavement condition, geometrics, environmental, future Annual Average Daily Traffic (AADT) estimate, and other technical information.

The HPMS study provides FHWA with information for:

- Biennial reports to Congress on The Status of the Nation's Highways
- Annual Highway Safety Performance reports to Congress
- Annual Highway Statistics reports
- Allocating Interstate Maintenance Program Funds
- Periodically assessing the extent and condition of highway systems
- Monitoring performance of highway systems over time
- Calculating impacts of existing FHWA programs and policies
- Forecasting impacts of future alternative programs and policies
- Providing estimates of Vehicle Miles Traveled (VMT) to the Environmental Protection Agency (EPA)

Apportionment formulas are given in SAFETEA - LU for the National Highway System (NHS), Interstate Maintenance (IM) and the State Transportation Program (STP). In each of these programs, funding is calculated based on lane miles and Vehicle Miles of Travel. The STP funds are allocated for the Federal-Aid Highways, which include the arterials and major collectors; but exclude rural minor collectors, and rural and urban local. Public road mileage, lane miles and VMT reported to the FHWA are all derived from the HPMS. Further information about federal apportionment can be found at

<http://www.fhwa.dot.gov/policy/ohim/hs04/htm/fa4a.htm>

The information in this publication should be valuable to transportation planners and administrators, legislative bodies, and others for use in transportation planning applications and transportation policy decision-making.

## Description of Data Tables

**Table 1**      **2011 MAINTAINED ROAD MILES, LANE MILES AND ESTIMATED ANNUAL VEHICLE MILES OF TRAVEL BY TYPE OF JURISDICTION**  
This is an overview of the public road mileage in California and the agencies that maintain and have jurisdiction over them. This includes roads in the 481 incorporated cities and the unincorporated parts of the counties in California. San Francisco, being a city and a county, is included in the cities since there is no unincorporated part of that county/city. State and federal agencies maintain most of the rest of the mileage. There is a small amount of public road mileage maintained by private and other entities.

**Table 2**      **2011 MAINTAINED MILES, LANE MILES AND ANNUAL VEHICLE MILES OF TRAVEL BY FUNCTIONAL CLASSIFICATION**  
A statewide summary of the miles, lane miles and annual vehicle miles traveled for each of the roadway functional classifications defined and recognized by the Federal Highway Administration. Functional Classifications are now consolidated to eliminate the distinction between urban and rural classes (i.e. a segment could be coded as “minor arterial”, not “urban minor arterial” or “rural minor arterial”). There are now 7 Functional Classifications: Interstate, Other Freeways & Expressways, Other Principal Arterials, Minor Arterials, Major Collectors, Minor Collectors, and Locals. The Major Collectors in rural and Collectors in urban have been combined under one code. Any public roads not classified as Arterials or Collectors have been classified as Local.

Tables 3, 4 and 7 also reflect this change.

**Table 3**      **2011 HPMS MILEAGE SUMMARY BY FUNCTIONAL CLASSIFICATION, POPULATION AND NET LAND AREA**  
Urbanized areas are delineated by the urban boundaries set by the U.S. Census Bureau. Rural areas contain population centers that have less than 5000 population, or areas below a population density of 1000 persons per square mile. Small urban areas are population centers with more than 5000 but less than 50,000 people. Urban areas have between 50,000 and 200,000 population and Large Urban areas have over 200,000. An urbanized or rural area may or may not contain an incorporated city and the urban boundary does not necessarily follow city corporation lines. The population of each urbanized area is derived from the population data of each city and county as published by the State Department of Finance. The net land area excludes the large bodies of water (7200 feet in least direction).

- Table 4**      **2011 HPMS ESTIMATED DAILY VEHICLE MILES OF TRAVEL BY URBAN AREA AND FUNCTIONAL CLASSIFICATION**  
This table is organized similarly to Table 3. This gives the Daily Vehicle Miles of Travel (DVMT).
- Table 5**      **2011 MILEAGE OF MAINTAINED PUBLIC ROADS IN EACH COUNTY BY TYPE OF JURISDICTION**  
Jurisdictions within each county, incorporated and unincorporated, which have reported public road mileage as of 2010. This table also appears as Table J-1 in the California Statistical Abstract published by the Department of Finance.
- Table 6**      **2011 MAINTAINED MILEAGE & DAILY VEHICLE MILES OF TRAVEL ESTIMATES BY JURISDICTION**  
The mileage figures originate from the annual maintained mileage reports submitted by the agencies.
- Table 7**      **2011 ROAD MILES BY FUNCTIONAL CLASSIFICATION BY COUNTY**  
These figures include all public road mileage from all jurisdictions within each county.
- Table 8**      **2011 MILES, LANE MILES AND DAILY VEHICLE MILES OF TRAVEL BY URBANIZED AREA**  
Similar to Tables 3 and 4, this also gives the lane miles.
- Table 9**      **2011 MILES, LANE MILES AND DAILY VEHICLE MILES OF TRAVEL ON THE NATIONAL HIGHWAY SYSTEM**  
The National Highway System was established by the National Highway System Designation Act of 1995. All Interstate routes are on the NHS. Of that, 96.2% of the mileage is on the state highways with the other 3.8% being on non-state highways. The nationwide average is 4% where as the average in California is 4.5%. NHS routes have special funding availability. The respective Caltrans district, Office of Local Programs, should be consulted to ascertain which specific routes are on the NHS. More information about the NHS can be found at:  
[http://www.fhwa.dot.gov/planning/national\\_highway\\_system/](http://www.fhwa.dot.gov/planning/national_highway_system/)
- Table 10**     **2011 MILES, LANE MILES AND DAILY VEHICLE MILES OF TRAVEL BY METROPOLITAN PLANNING ORGANIZATIONS**  
This provides the 18 Metropolitan Planning Organizations officially recognized in California as of 2011 with data for their regions. Note that all but 2 of these MPOs have their boundaries exclusively along county lines. The miles, lane miles and DVMT shown for the Tahoe Regional Planning Agency (TRPA) include only the portions in California and not Nevada.
