4. Object in writing to the violation notice and waive the right to an informal Department review pursuant to Section 2443(b).

§ 2505. Change in Freeway Character--Preliminary Landscape Determination

(a) Before the award of a Highway Planting Project, the Chief Landscape Architect makes a preliminary landscape determination, based on the project design plans, and/or concept plans of whether the project will change the character of the freeway to a landscaped freeway. If the preliminary landscape determination is that the project will meet the criteria for being a landscaped freeway and the Highway Planting Project adjacent to existing freeway segments will begin within 180 days, or that the Highway Planting Project adjacent to a new segment of freeway will begin within two fiscal years, the Chief Landscape Architect issues a notice of preliminary landscape determination to the Office of Outdoor Advertising and posts that determination on the Landscape Architect’s web page, to all persons who have made a written request to the Chief Landscape Architect to receive notice of all preliminary landscape determinations.

(b) The Office of Outdoor Advertising shall not issue a permit for a Display Adjacent To a section of freeway that is designed primarily to be viewed by a person traveling on the landscaped section after a preliminary landscaped determination is made. A Display permit which is issued, but where no physical construction of the Display has begun or exists, confers no vested rights and is canceled no earlier than 180 days after and the Permittee is notified of the action in writing by the Office of Outdoor Advertising. Physical construction of a Display begins when the Permittee has applied for a local building permit before the Department issues notice that the permitted location has become nonconforming, and the Display is constructed before the local building permit expires or 180 days whichever occurs first. Only customary maintenance, as described in section 2270 of this chapter may be performed on existing outdoor advertising displays adjacent to a landscaped freeway section.

(c) If the Highway Planting Project does not begin within 180 days after the date the preliminary landscape determination along an existing segment of freeway is made or within two fiscal years along a new segment of freeway, the determination lapses. The Chief Landscape Architect shall post a notice within 30 days of the lapsed preliminary landscape determination on the Landscape Architect’s web page and send notice to the Office of Outdoor Advertising and to those who received a notice of the preliminary landscape determination.

(d) After the Office Outdoor Advertising is notified of the preliminary landscape determination lapse, a permit for a Display shall be issued if the Display meets the provisions of the Act and these regulations.
(e) A preliminary landscape determination lapse may not prevent a future determination that the same or similar proposed Planting meets the landscaped criteria.

AUTHORITY:

§ 2507. Landscaped Freeway--Minimum Length

(a) To be classified as a landscaped freeway, a Continuous Planting segment measured parallel from the freeway centerline is at least 1,000 feet in length. For purposes of these regulations, the 1,000-foot length is calculated by either of the following:

(1) 1,000 linear feet of Continuous Planting on one side or the median of the freeway, or

(2) 1,000 linear feet of landscaped area which is the combination of Continuous Planting on both sides and/or the median of the freeway. Continuous Planting can either overlap or have a common point of beginning and ending, as measured along the freeway centerline.

(b) If a Continuous Planting segment as described above is followed by a gap of 200 feet or less and adjoins Continuous Planting which is at least 500 feet in length, the designation "landscaped freeway" applies to the total length of the Continuous Planting segment, the "gap", and the Continuous Planting.

(c) The Continuous Planting requirement is not applicable to the Glen Anderson Freeway, formerly known as the Century Freeway (I-105 in Los Angeles County).

AUTHORITY:

§ 2508. Change in Freeway Character--Criteria and Inspection

(a) A freeway may not be classified as a landscaped freeway until a licensed Landscape Architect employed by the Department and based on personal inspection of the Highway Planting Project, certifies in writing that the character of the freeway is changed to a landscaped freeway. The freeway character is changed to a landscaped freeway when Ornamental Vegetation is in place, is at least 1,000 feet in length, is alive, exhibits healthy growth characteristics, and the Highway Planting Project is Accepted by the Department.

(b) The Planting will require reasonable maintenance. That means a plant which, when planted, requires maintenance on a regular basis to maintain it in a healthy and attractive condition. The fact that as a plant matures it may require less maintenance than when first planted is not interpreted to mean it does not require reasonable maintenance. As used herein, maintenance means any of the following: watering, fertilizing, spraying, cultivating, pruning, cutting, mowing, replacing, weed control, washing, pest control, disease control, litter removal, or other similar plant care procedures.
(c) Functional planting does not change the character of the freeway to a landscaped freeway. Functional planting means vegetation primarily for soil erosion control, traffic safety, reduction of fire hazards, and traffic noise abatement or other non-ornamental purposes. A single row of plantings in the median shall be considered a functional planting.

AUTHORITY:

§ 2511. Temporary Removal of Plant Material Retention of Classification

A landscaped freeway retains its classification:

(a) When a construction project results in the temporary removal of the plant material. If the plant material is not replaced within six months after the Department Accepts the construction project, the Chief Landscape Architect shall review the classification upon the receipt of a written request. No review shall be made until six months after the Department accepts the construction contract. If the Chief Landscape Architect determines that it is not reasonably certain that new Plantings, sufficient to constitute a landscaped freeway, will be placed within two fiscal years of the date of the request for review, the section is declassified.

(b) When a catastrophic event, such as a disease, pests, freeze or fire kills over 50% of the plantings in a segment, or over 3000 trees or shrubs of the same variety within a three year period throughout the state. In the case of such a catastrophic event, the Chief Landscape Architect shall review the classification upon receipt of a written request. The section will be declassified unless a concept plan to replace the plantings is adopted within two years after the conclusion of the catastrophic event or if the Chief Landscape Architect determines that it is not reasonably certain that new Plantings, sufficient to constitute a landscaped freeway, will be placed within six fiscal years of the date of the request for review.

AUTHORITY:

§ 2512. Request for Reclassification

A person may make a written request to the Chief Landscape Architect, to classify a freeway or a section of freeway as a landscaped freeway, or to declassify a freeway or section of freeway classified as a landscaped freeway.

(a) The request (1) shall be in writing; (2) shall be signed and dated; (3) shall identify the section of freeway by county, route and post mile or kilometer post; and (4) shall contain a detailed statement of reasons supporting the proposed freeway classification or declassification.
(b) Within 60 days after receiving the written request, a Landscape Architect shall inspect the freeway or section of freeway covered by the request. All findings made during this inspection are presented to the Chief Landscape Architect, who shall determine whether to reclassify the freeway section. The determination of whether to reclassify is based upon whether the freeway section meets the criteria of the Act and these regulations on the date of determination. A field review need not be made if a review has taken place within two years of the date of the request, unless the request specifies major changes have occurred within the two years preceding the request.

(c) Within 90 days after receiving a request for reclassification, the person making the request is notified in writing by the Department Chief Landscape Architect of the determination and the reasons therefore. If the request is not granted, the person making the request may obtain review of appeal this determination by notifying the Deputy Director Project Development pursuant to the provisions of section 2241 (b) of these regulations within 30 days of the Department's notification. The Deputy Director Project Development shall have 30 days to consider the request. If no action is taken by the Deputy Director Project Development within 30 days, the request is deemed denied and all administrative remedies exhausted. The Deputy Director Project Development may extend the time to consider the request for an additional 30 days.

AUTHORITY:

§ 2513. Displays Viewed Primarily from Landscaped Freeways

If a section of freeway is classified as a landscaped freeway, the Department determines if there is a Display Adjacent To that section of freeway which is designed to be viewed primarily by a person traveling on the landscaped section of a freeway.

(a) A Display is designed to be viewed primarily from a landscaped freeway section when the Display is within the limits of a landscaped freeway and its copy is legible to motorists from within the landscaped segment.

(b) All determinations are made in the present. The fact the Display may have been designed primarily to be viewed from another roadway at some point in the past is not determinative.

(c) Notwithstanding subsection (a) above, if a Display's copy is legible from both a landscaped freeway and another freeway or highway, a rebuttable presumption is established that the Display is designed primarily to be viewed from the freeway or highway with the highest daily traffic count. This presumption may be rebutted by use of the following criteria:

1. Traffic Count. Comparing the difference between the average daily traffic count for the landscaped freeway and the other freeway or highway.

3. Visual Approach Distance. The distance the Display is legible measured along each freeway or highway it is visible from.
(4) Height. Whether the Display's height makes the Display legible to more motorists on one freeway or highway or legible to motorists for a longer period of time on one freeway or highway.

(5) Relative Size. The prominence the Display has from each freeway or highway.

(6) Copy. Does the advertising message, or have past advertising messages, give specific directions for persons on only one freeway or highway.

(7) Owner's Representations. Has the Display been represented by the owner to be viewed primarily by persons traveling on one freeway or highway.
