LEGAL HOLIDAY – Independence Day

#110 July 06, 2004 Tue.

I finished updating the PMIV records; I printed the Submittal Status Report in a large format and posted it on the wall. Rafael and I met with Pedro regarding the Community Partnering Workshop; we are still collecting the names of the potential attendees. Rafael sent an e-mail informing the staff of the tentative date for meeting: July 26<sup>th</sup>. HQ approved the DRB chairperson nominee. A letter will be sent to the contractor asking him to approve the proposed nominee in order to schedule the initial meeting.

I met with Rosemary Slabaugh regarding the status of the environmental submittals. We agreed on meeting tomorrow afternoon with KFM representatives to clarify and discuss our comments to the original SWPP submittal. She will invite Yalin to the meeting.

I asked Chris Master

#111 July 07, 2004 Wed.

I wrote a letter to KFM to address the DRB nominee. Rosemary gave a list with the names of the people from the regulatory agencies that should attend the Partnering Community Workshop. Jean-Luis and company came over to fix some problems with the software, we also want to do some modifications to the reports. I started incorporating the names of the invitees to the Partnering Community Workshop in PMIV. It is my understanding that Jean-Louis downloaded the software electronic daily diary feature in Mark Vilcheck's computer today.

Rosemary, Chris Elbo and I met with the contractor's representatives to discuss our comments to their original SWPP submittal. After the meeting, Rosemary and I visited Yalin at the Cypress office to review the comments with him. It was agreed that Rosemary will write another letter to KFM with the latest comments to the SWPP submittal.

#112 July 08, 2004 Thu.

Safety meeting in the morning. After inputting all the names in PMIV, I prepared a tentative agenda for the partnering meeting. Rafael and I met with Pedro and gave him an update on the community partnering workshop. It was noticed that the PMIV software is "acting up". I sent an e-mail to JL Meynier asking for immediate assistance. Jessica Wang showed up in the afternoon and begun fixing the problems.

#113 July 09, 2004 Fri.

Staff meeting in the morning. Mark is frustrated with PMIV, at the meeting he asked us all to start collecting the problems with the software. I met with Rob Hartley and he gave me an overview of the issues holding the approval of the baseline schedule.

I made corrections to the tentative agenda for the Community Partnering Meeting and mailed it to Rafael for circulation.
