Office work

- Attended Senior Meeting. Need to provide monthly updates for Furlough usage and also The Monthly OT/Leave logs. Sybil to send to Amer first of each month. Talked about tracking daily diaries. Chris mater to adjust the PMIV reports such that we will have a visual warning system to identify the situation when no diary has been written. The extra work agreements must accompany daily diaries and turned in to Sybil who would share with Hovik and Richard to process monthly progress pay estimates.
- Received a list from e-mail from Amer for staff with more than 640 hours of leave balances. Will go over compliance requirement with the staff at the next group meeting. Employees with access limits need to submit a plan to reduce the balance to below limit by the end of calendar year.
- Met with MCM in the afternoon to go over pending CCOs. A large number of CCOs are pending cost estimates or signature by MCM. Greg Allen would follow up with the status.
- Sent out State letter 1499 to MCM to update their list of labor and equipment and subs working on the project in connection with EMDDSDD requirements.
- Reviewed and approved daily diaries and time sheets.
