Dispute

Office work

-Had a discussion with Raj regarding payment for Traffic Control and lane closures for working on the mole substation. I had previously sent a letter to the contractor informing them that the cost of any necessary lane closure for performing contract item work is included in the cost of that item and traffic control item. Raj stated that he believes we should pay for closures.

-Received sample letters and copies of the related CT policies from Laura Owens.

-Received a follow up email from Sumudu Welaratna regarding the SBRH that said " I wanted to send an update. I spoke with Bob Batha and Ande Bennet of BCDC last week. Ande feels that everything looks good with our package for the Shorebird Island construction methods, and does not have any changes to suggest. Bob will be out of the office until September 21st, and will review it upon his return, but given Ande's comments, I think any changes requested will be minimal or none. I'll let you know what they say as soon as I hear back sometime soon after the 21st. We should still be on track for construction in late November."

-Received an email from Amer regarding the OTD1 staffing plan. He attached the latest staffing plan and asked for changes to him by 10AM tomorrow Thursday.
