Office work/field

Behzad informed me this morning that the contractor drove 4 to 5 screw into the roof of the Mole sub station, and he is not sure what to do. I looked at the screws , and it seems that the contractor drove the screws to secure the vinyl to the roof to cover the openinh during the rain.

Called Gerg Allen to inquire about the Mole sub station windows.

Met with Ali Nikoo to discuss the bimonthly report.

Met with Chris Smith, John Mcewen and Greg Allen in the field to discuss the service platform erection issues.
