Letter No. 05.003.01-000869

Subject: Response to KFM Letter No. 143 (Construction of Pier T1 Oversized Hole at CIDH #T1)

Dear Christopher,

The Department has received Kiewit-FCI-Manson Letter No. 143 dated March 1, 2006, which provided notification that soil conditions below the temporary steel casing (TSC) tip elevation of -25 m at CIDH pile location No. 1 differ materially from those indicated in the Contract. Please provide calculations, and associated documentation, that show the conditions below the TSC tip elevation of -25 m at CIDH pile location No. 1 differ materially from those indicated in the Contract. In addition, provide the calculations, and associated documentation, that show that the soils at the location of TSC No. 1 could be expected to have enough capacity to support the TSC and the drill during construction operations.

If you have any questions or need additional information, please contact Mark Vilcheck at (510) 286-0526.

Sincerely,
