RFI Response

To: Caltrans
Attn: Bill Shedd, Martin Chandrawinata, Stanley Ku
Project: 04-0120F4 - SAS
RFI Date: 08/13/2013
RFI No: 3447R00
Subject: **Cable Terminations: Strong Motion ISDN**

Background:

Contractor is requesting information where to terminate the Strong Motion ISDN cables #2910-10 and #2910-12 inside the existing telephone terminal box #TEL-5. Cables are from Strong Motion Recorder #2B and #3 respectively.

Response:

Cable termination requested by the contractor is depicted in the attached sketches SK-RFI3447R00-E337D, SK-RFI3447R00-E383 and SK-RFI3447R00-E384.

PB notes that only cable #2910-10 will require termination and cable #2910-12 will be unterminated and abandoned in place as it is no longer required per the email, dated 8/14/13, from Carl Petersen of California Strong Motion Instrumentation Program (CSMIP). PB also understands that cable #2910-10 will be utilized for Plain Old Telephone Service (POTS) circuit in lieu of the Intergrated Service Digital Network (ISDN) circuit.
