RESIDENT ENGINEER'S DAILY REPORT – FILE CAT. 45

ASST. RESIDENT ENGINEER'S DAILY REPORT – FILE CAT. 46

REPORT NO.: <b>018 to 024</b>	DATE: <b>12/31/06 to 01/06/2007</b> S <input type="checkbox"/> M <input type="checkbox"/> T <input type="checkbox"/> W <input type="checkbox"/> T <input type="checkbox"/> F <input type="checkbox"/> S (Circle Day)
SHIFT HOUR: START; <b>08:00</b> STOP; <b>16:30</b>	TEMPERATURE: MIN; <b>NA</b> MAX; <b>NA</b>

WEATHER: **(NA – See Weekly Statement of Working Days)**

Monday: 1/01/2007: Holiday = 8 hrs  
 • New Year's Day Holiday.

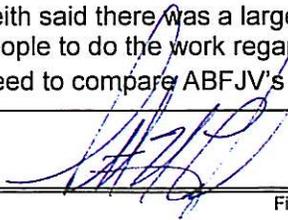

Tuesday: 1/02/2007 0730-1600 = 8 hrs  
 • Paul Chui came in today. Spent a good portion of the day going through the State paperwork, getting his FOB, computer, etc.  
 • First day back after a week of being sick. Spent a portion of the day going through past e-mails and trying to catch-up on various project issues.  
 • Worked on diaries for the past two weeks.

Wednesday: 1/03/2007 0730-1600 = 8 hrs  
 • Paul Chui received a message that his father-in-law past away today. He'll finish working today but will be off the next two days.  
 • Worked on CCO's 23 & 27. Revised CPA form to include Rob Kobal's signature line again, but stating that his signature is for concurrence only, (not approval).

Thursday: 1/04/2007 0800-1630 = 8 hrs  
 • Had CCO (Internal) meeting this morning. See notes on the tracking status report for more information.  
 • Had CCO 015 meeting with ABFJV today with Gary and staff. ABFJV went over their understanding on what CCO 015 includes.  
 • Rest of the day starting to work on combining the different versions of the RFI-RFC status log as per Darryl's request. This is so that everyone on the State side works off the same RFI log to make it easier for everyone involved.

Friday: 1/05/2007 0800-1630 = 8 hrs  
 • Worked most of the day on the RFI-RFC status log.  
 • Had MOH meeting with the people on the Skyway project. My notes included the following:
 

- Set-up Category 9 for various welding reports for the different types of material as well as suppliers.
- Still need work breakdown structure so METS can file reports by cross-member, etc.
- Check with ABFJV to see how they are tracking the work breakdown structure.
- Get 3101's ASAP.
- Need schedule of values.
- Use PMIV to archive files for files that are 4months and older.
- Keith said there was a large turnover with KFM regarding the submittal of MOH. See that ABFJV has two people to do the work regarding material issues.
- Need to compare ABFJV's WQCP to what is required in the Specials.
