12/27-Wednesday:

- “J4” SWPPP inspection with Gez. Asked Gez to fill out the form and send a copy to DCI. Gez will coordinate corrective issues with DCI foreman.
- “J4” Rick Erskine dropped off Survey Request 08.001.024- I asked Robert to issue to DCI.
- “J4” Met with Mohinder- review filing of Q-sheets. Asked Mohinder to discuss with inspectors if any information is missing from Q-sheets.
- Reviewed E-mail response from Norman Gonsalves on the grades at detention basin location 2. I had the field staff conduct a survey to determine the finish grades of the basin, my concern was that the west end of the basin at heavy rain storm will be at the same elevation or greater than 80 west bound and could flood 80 WB. Norman responded with some modifications to be made to the vertical drains at the head walls which I forwarded to Gez and asked him to put it on his punch list.

12/28-Thursday:

- “J4” sent e-mail to Rita Holm inquired why the request for revolving fund check to be issued to PG&E to drop a power line for J4 project final, was returned without comments and I e-mailed the attachment. She responded noting that she had not seen it.
- “J4” Informed Rich and told him that I would get in touch with PG&E.
- “J4” Did a drive through of the site with Gez to look at SWPPP issues. Met the contractor and asked if they repaired the wash out by the concrete ditch at location 3, they were on the way. Gez and I met them at the location and ensure the work was completed.
- “J4” Mohinder inquired where the Pour records were to be filed, I told him to file under CAT 43 and copy of cover under CAT 48 for the respective items.
