Subject Report: 06/25/2007

- I worked on Changxing Island.
- ZPMC stated in the daily meeting that it would start new PQRs tomorrow. ZPMC will provide procedure to ABF this afternoon.
- I was able to download some shop drawing files this morning via the network on the island. The biggest one is about 65M. The file was downloaded in 30 minutes.
- I contacted Ed Parks' assistant this afternoon to get information on car rental. She contacted Mr. Liu of Shanghai Ming Xing Car Rental Company. Mr. Liu called me and said that he would send a representative to Marriott tomorrow morning to give me car rental price and answer my questions. Mr. Liu recommended a 17-seat mini bus to provide more rooms for our engineers.
- I looked at Ady's floor plans. Since the desk area is relative small, Dave McClary recommended arranging two desks in "L" shape (like ABF's setting) or double up to provide more working service for our engineers. We should be able to move in to room 708 by the end of the week.
