I met with Ron Matin today and we discussed the ISDs for the E2 cross beam. Amongst other things, he explained the history of these ISDs and that at one point the Plan sheets were to follow the ISD drawings. But, due to some complications, this never materialized. The ISDs and the Plan sheets, he added, are mutually exclusive of each other. He passed on a copy of the RFI and Submittal logs, which includes some of the relevant issues to the E2 cross beam.

For most of the day I was involved in writing the STL 3871, in response to KFM-TRN-697, which was to close the loop on NOPCs 13, 14, & 15.

Inspector: *Saman Soheili*
