- Reviewed the falsework plan and the special provisions;
- Gil called me over to D. Bradd's desk to talk to us in regards to ABF-CAL-LTR-475, in which ABF submitted survey information on E2 & W2. He told me to review the data and talk to T. Y. Lin in order to finalize a response to ABF. On the surface, the survey data for E2 seems seriously deficient. He added that ABF needs to give us all the critical points, location of points, coordinates and elevations, and the monuments used in conducting their survey.

Furthermore, we discussed D. Bradd's role in cross checking the ABF's data once submitted.
