NOTES:

I was informed by Art Pannu earlier this week that he was going to be in Winter training for the first three days of next week and that I was going to be acting as the Lead worker for Temporary Towers A, B, C, and anything going on for D. Because of this, I worked on the plans for the driving frame for tower D. After this, Seong and I went out to look at the elements of frame D that are on a barge at Pier 7.

In the afternoon, Art and I went over some of the items that will need to be addressed during his Winter Training session. At the end of the day Art gave me some quantities to check for him and said that Francis wanted to submit them before the end of the day. I worked on them until 1630 hours, accruing an hour of overtime.

Inspector:

Jason Wilcox

Transportation Engineer – Civil (D)/Asst. Struct. Rep
