NOTES:

We had a group meeting this morning at 0800 hours and talked about the upcoming operations on the project. We also spoke about the upcoming concrete certification classes next week and who needed to attend. After the meeting I was able to look over the Special Provisions as well as the Project Plans sheets to become more familiar with them.

In the afternoon I spoke to John Callaghan about trying to gain access to the barge that has the pile driving frame for temporary tower D. He said that he could not get it done today, but that he would give a call to a man named Jerry tomorrow and see if he could get a gangway set up for everyone to use.

Inspector:

Jason Wilcox

Transportation Engineer – Civil (D)/Asst. Struct. Rep
