WEATHER: **(NA – See Weekly Statement of Working Days)**	

Monday: 5/05/2008 0800-1630 = 8 hrs

- Finished last week's diary.
- Sent CCO 53 updated plan sheet to Sam Choy in PMIV and updated the Plan Sheet Library.
- Worked on CCO 83 CM and reading/compiling backup data for the CCO binder.

Tuesday: 5/06/2008 0730-1700 = 8 + 1 OT hrs

- Worked on CCO 83 CM.
- Worked on ATP (Suppl) letter to ABF regarding CCO 41 updated specs, plans sheets and testing.
- Updated Contractor CCO Summary Log for meeting today with ABF. E-mailed them a copy of the log as well before the meeting.
- CT-ABF CCO Meeting notes: (ABF: S. Choy, B. Yee and Eric Christianson. CT: J Ocampo and S Fabel. Steve not here today)
  - 5s1: Submit as EWFA. Brandon would like a letter defining the scope of the videographer since they are using HD quality camera equipment and format. I'm to ask Bart (PIO) for spec.
  - 12: ABF needs scope letter on security guard. ABF sees it as follows: Pier 7 60CT/40ABF, YBI 50/50, Mole gate 100CT, plus 10% markup. I'm to send Sam/Brandon draft scope letter before finalizing.
  - 24: Send ABF CCO 24. See 4/22/08 notes. Confirm with S Bonnet.
  - 25: Working on a price.
  - 27: With ABF. Jeff to talk to Brian about RFI 953. Sam asked to put RFI 953 into CCO 27.
  - 36s1: The two RFIs added are not for ABF's convenience. Jeff to investigate.
  - 36s0: $77K. Put money amount into CCO log (not $0). ABF still reviewing CCO language.
  - 38s1: $1.85M vs. $72K from Steve Bonnet. Meeting forthcoming. ABF has not received a letter on this yet, only an e-mail from Steve on CT's cost. Sam to talk to Steve first, then follow up with a response letter to ABF's $1.85M.
  - 41: I told Sam letter coming on spec and plan sheets as well as starting some testing. (* Fix ATP cell on spreadsheet).
  - 44: Received detailing costs today. ABF wants detailing cost under CCO 44s0. This way all the RFIs are tied into the detailing/fabrication and can be tracked individually through the schedule. If the detailing were grouped in a separate CCO, it would be hard to track the RFIs.
  - 45: Meeting Thursday at 1 PM on escalation for not ordering the pipe.
  - 48: Teflon not spec'd. If CT specs, CT will have to pay (what ABF says). I'll check with Mark Woods and Steve Bonnet on this issue.
  - 53: Sam verbally says $2.3M from ZPMC. Does not include the portion in NOPC 5. Told Sam I sent the R3 plan sheet to him yesterday through PMIV.
  - 57: Sam says CCO went to Goodman. Once they sign, ABF will sign CT's CCO.
  - 59: Meeting tomorrow to go over CCO 59 scope and table.
  - 60: ABF wants to get paid. Check with Brian Boal.
  - 71: Sam to send me e-mail o shear key issue (and reference what RFIs) so I can track it down.
  - 76: I need to check the status of the plan sheets so I can give draft copy to ABF for review.
