Today, Traylor-Dutra is working @ Berth 7. Crews, R.Hiebert(DB5) and L.Tacker(Big Digger) are performing mobilization duties for both cranes. These Barge cranes will be used @ T1 for the Temporary towers driving frame piles and piles for the temp tower(temp/perm.)piles. There are many mobilizing activities all around Berth7 and aboard the barge cranes. Terry Murray(CB-11) and crew continue work @ T1 cutting the pile tops and installed cover plates on top. They also moved CB-11for set up to install the batter piles and were instructed not to proceed with installation until after lunch due to the environmental permits are approved. Permits not approved after lunch therefore the crew continued cutting piles and installing plate covers.

Note: ABF-Traylor/Dutra don't have the proper environmental permits to perform the work, RWQCB and SWPPP.
