**Description of Operation:**

Thanh Le observed the crews out at the Tower D falsework for the day. On the North side they are welding the sand jacks into position on the double beams

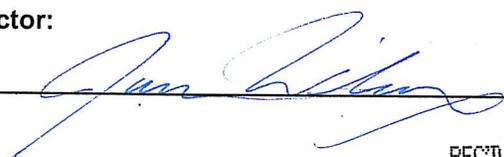

The DB-5 is assembling the Menck MHU 500T this morning. Damon Brown will have the diary for the day at this location.

Most of the morning I worked on finalizing the response to Submittal 657 R02 and Submittal 700. I had to call Saba Mohan to clarify some of the concerns he had for the Pile Driving System submittal, SUB 700. Once these were cleared up, I spoke with Bill O'Sullivan about some of the concerns the Department had on the submittal.

OVERTIME: I acquired 2 hours of overtime finalizing a response for Submittal 657 R02.

Inspector:

Jason Wilcox

Transportation Engineer (D)/Asst. Struct. Rep
