Description of Operation:

Thanh Le is observing the operations at Temp Tower D today and will have most of the detailed diary. By the end of the day truss TR201A was placed and bolted between both Southern frames. In the morning I finalized the response for Submittal 700, Driving System Submittal for Tower D, after being reviewed. I also reviewed diaries and completed some of my own diaries. By early afternoon the response went over to the contractor.

OVERTIME: Arriving early and communicating with the contractor meant accruing 2 hours of overtime.
