DAILY REPORT

Date: Week of July 28, 2008

Monday, July 28, 2008

Attended Champions meeting – Ken T. and Brian M. not in attendance. Provided update on dredging (not likely to happen) and S-Wire procurement.

Team China teleconference cancelled due to weather/winds impacting transportation to the island.

Tuesday, July 29, 2008

Presentation at ABF conference room to show the updated 3-D models being prepared by TYLin and PB. I did not attend.

At the request of Tony A, I joined a boat tour of the project with HQ Planning and Budgets (Norma Ortega) staff and two staff from the Legislative Analysis office.

Held Team China teleconference with Pete on island.

Wednesday, July 30, 2008

At small core group meeting this morning, the following topics were discussed:

- Demonstration of 3D models yesterday.
- Need to review access/worker safety issues with 3D drawings.
- ABF's desire to install dolphin fender piles at Pier 7 warf – some 32 each 32" piles.

Thursday, July 31, 2008

Bi-weekly senior staff meeting held this morning, review correspondence and update on the status of key issues.

At team China teleconference, we reviewed letter to ABF re: deck panel issues, CCO89, and CCO 77.

Sam Choy called asking about CCO 60, as he wanted to submit for an EWBILL for payment. I pointed out that ABF had recently returned CCO 60 due to concern for the liability for stand.

Friday, August 1, 2008

Annual Leave. Worked a bit from home.

Gary Pursell
Resident Engineer, SAS Bridge
