Description of Operation:

Thanh Le is out on the Tower D driving frame today to observe the pile driving operation. He will have the detailed diary for the day. He informed me this morning that the contractor will be driving the remaining three piles for the South Tower D driving frame. One of the piles is damaged on the top four inches or so and must be cut off to insure proper fit with the hammer.

Attended the 10:00 am staff meeting to go over the operations within the Temporary Tower group.

Once PMIV was up and running this morning I got together with Gina Rizzardo to draft up a response to submittals 657R07, 705R00, and 705R01.

The Western Gull and its hatchling continue to inhabit the nest on the Southwest corner of the T1 footing.

OVERTIME: Accrued 2 hours of overtime covering the contractors hours.

Inspector:
